Make sure you selected the correct electric service on the front page. Most travel trailers with a single AC are 30 Amp. Most 5th wheels with 2 ACs or Washer & Dryer are 50 Amp.

We strongly recommend the use of an electrical surge protector and a water pressure regulator to protect your camper. Failure to properly use these safety devices waives any claim you may have for damage caused by electrical surges, brownouts, or high water pressure.

Generators may be used 8am - 11pm..

I agree to leave the grounds in the condition I found them, including not leaving any trash behind. I will be responsible to pay for any damage. Troy Fair and Alparon Park are not responsible for personal property. Alparon Park is alcohol free - no public drinking allowed. Troy Fair reserves the right to refuse or evict any camper that does not meet our rules or criteria.

I agree to all the terms and conditions above and will obey all posted rules and regulations of the Troy Fair and Alparon Park:
