

Small Tire Tractor Rules

1. Weight Class will be 5500.
2. Drawbar height of maximum of 20" and minimum of 18" from the center of the axle
3. Drawbars are to be stationary in all directions. Turnbuckles to not be above the center of the axle.
4. Drawbar to be 1 inch thick, 4 diameter hole no more than 1 ½ in from back edge.
5. Tire size will be 15.5.38 or 16.9.34 any cut.
6. Length of tractor not to exceed 11ft from the center of the rear axle to the front of the furthest point. No weights beyond rear tires
7. No governor strings or wires permitted, 3000 RPM limit.
8. Engine fans must be shrouded.
9. Exhaust must discharge upward above the highest point.
10. One barrel up draft carburetor only. No turbo charger.
11. One attempt will be given for changing gears or weights within 75 feet from the start.
12. Any parts/weights falling off the tractor onto the track disqualifies the hook.
13. Driver must be seated at all times while pulling.
14. All pulls are to be started from a tight hitch. No Jerking.
15. Tractors must stay within boundaries or they will be disqualified.
16. No pressurized tanks, with the exception of LP gas
17. Rules of pull are subject to change by the tractor pulling officials.
18. All tractors to be weighed before the start of the class parked in the staging area.
